## Low Voltage Directive Installation Information

*Certain practices must be followed when installing the AC motor drives in order to meet the requirements of the Low Voltage Directive 73/23/EEC and as amended by Directive 93/68/EEC. The AC motor drives are components intended for installation within other electrical systems or machines. The system or machine builder must ensure their product complies with all the applicable standards required/or that equipment. For details of the installation requirements, please refer to the products operation manual available at <https://motion.schneider-electric.com>*
